

## Hindelang – Hinterstein - Hopferau

Then we reached Hindelang / Allgäu, I was born there 1945. It is a small village in the South of Germany surrounded by mountains up to more than 2000m.

In Hinterstein the Zuse-Family did live from April 1945 to October 1946. It was close to the church.

The family Zuse did live in this house in the second floor below the roof.

## Konrad Zuse Powerplant – Inauguration

In Hinterstein we had an inauguration. The powerplant of the Ostrach got the Name Konrad Zuse.

Left: The old barrage for the river Ostrach in Hinterstein. Right: In 2019 the company *Allgäuer Kraftwerke* - Allgäuer Powerplants – decided together with me to give the name Konrad Zuse to this new powerplant.

In Hinterstein was the celebration for the name Konrad Zuse of the powerplant.

As it usual in Bavaria, a Music Band was there, also beer, and food was served. At the right the new powerplant with a fish ladder.

## Konrad Zuse – Memorial in Hinterstein

This memorial is a gift of the Zuse-Gesellschaft (Zuse-Society) to Hinterstein (twenty meters in a distance of our old home right).

The text is: *In remember at Konrad Zuse – the inventor of the computer. Konrad did live from April 1945 to October 1946 in Hinterstein. Konrad-Zuse-Society 2022.*

## Hopferau – Castle – Bernd Rath - Woodcuts

In Hopferau, Bernd Rath, the owner of the castle, made an exhibition of 23 ZUSE-woodcuts. The originals of the woodcuts are in my ownership. It is the first time that I did publish these woodcuts.

Bernd Rath and his castle *Schloß zu Hopferau*.

In the castle of Hopferau, there are many paintings by Konrad Zuse.

The exhibition of the woodcuts were in the stair floor of the castle.

A self portrait of Konrad Zuse in 1945 and a color woodcut of the *Zifpelsfälle* in Hinterstein.

## Scientific Works

I am still doing scientific works.

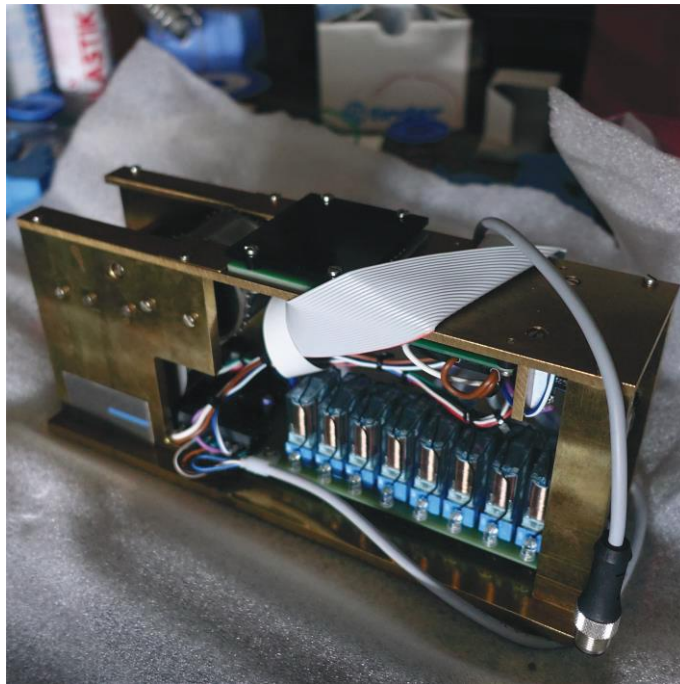

Hinterstein und Hopferau,  
die dort entstandenen  
Holzschnitte und die  
Entwicklung des  
Computers Z4.

Horst Zuse

I finished a booklet with the woodcuts – about 23 – which Konrad Zuse created in Hinterstein and Hopferau from 1945-49.

And, finally I will implement the punch tape reader of the Z3r.

## A Healthy New Year 2023

Karin and Horst
